

LAIBA IMRAN

FULL-STACK WEB DEVELOPER & COMPUTER SCIENCE STUDENT

Address: House No R277 Sector 5L, North Karachi, 74600, Pakistan

Phone: +92 370 3050003 | **Email:** laibaimran01768@gmail.com

LinkedIn: linkedin.com/in/laiba-imran-01a155287 | **Instagram:** @laibaimran.dev

| SUMMARY

Motivated and detail-oriented Computer Science student with a strong academic and practical foundation in both frontend and backend web development. Technically proficient in designing responsive, modern user interfaces alongside robust, scalable database architectures. Passionate about engineering structured web applications, continuous learning, and driving innovation through elegant programming solutions.

| TECHNICAL SKILLS

Frontend:	HTML5, CSS3, JavaScript (ES6+), Bootstrap, jQuery
Backend:	ASP.NET Core MVC, PHP
Databases:	MS SQL Server, MySQL
Design & Tools:	Adobe Illustrator, Graphic Design, Canva, MS Office Suite
Languages:	English (Professional), Urdu (Native)

| ACADEMIC & TECHNICAL PROJECTS

Sehat Care – Insurance Management Web Application

Feb 2026 – Mar 2026

Built with ASP.NET Core MVC, MS SQL Server, and Bootstrap

Project Demo (Video): drive.google.com/file/d/13AUZGruwhBo5IBhbeTr2MKEcFkyoMqBV/view

- Engineered a comprehensive corporate health insurance application utilizing a multi-tier structure to handle robust backend management features.
- Implemented custom role-based access control (RBAC) mechanisms to strictly segregate permissions across specialized Admin, Employee, Manager, and Finance Manager dashboards.
- Designed normalized relational database schemas to process internal approvals, financial records, and employee credentials securely.

Liberty Electronics – Static E-Commerce Platform

Recent

Built with HTML5, CSS3, JavaScript, and Netlify

Live Project Link: libertyelectronicssss.netlify.app

- Developed a fully responsive static e-commerce web platform optimized cleanly for mobile, tablet, and desktop viewing windows.
- Showcased structural product catalogs with streamlined navigation layouts, semantic code, and aesthetic UI elements.
- Deployed the platform frontend architectures directly to Netlify for production-ready speeds and asset pipeline caching.

| EDUCATION

Bachelor of Science in Computer Science (BSCS)

Feb 2026 – Present

University of Karachi — Karachi, Pakistan

- Currently in progress, executing core academic foundational studies in full-stack software structures, algorithmic logic, and relational environments.
